I Germany

MANN + HUMMEL, a global leader and expert in the field of filtration, develops innovative solutions for people's health and mobility. Wide range of products and services for our customers and it allows us to meet the needs of society. What exactly do you understand by the term of "filtration"? Here is a really simple and clear explanation: filtering separates what is useful from harm. Inspired by the latest technology and ecological requirements, Mann-Hummel has been continuously improving its expertise in the field of filtration for decades. Mann Hummel products are used in many sectors including automotive, industrial applications, indoor and outdoor use of clean air and sustainable water.

Products

Mann Hummel has a wide variety of production. Fuel filters, oil filters, air purifiers and cabin filters not only for the automotive group, combine harvesters, compressors, ventilation and manufactures in air conditioning systems and water treatment systems.

Range

Our company offers its products to its customers with all kinds of Mann Filter products. You can find all kinds of heavy vehicles, light commercial, passenger and industrial products in our stocks.

I France

Valeo was founded in Saint Ouen (France) in 1923. Valeo, a supplier and strategic partner of all automotive manufacturers worldwide is a leading supplier of high-tech automotive technologies.

Valeo Service, which is part of its group, is a worldwide innovation market specialist in the automotive industry. Valeo Service is committed to protecting the vehicles (passenger and industrial vehicles) of you and your customers for many years, even after leaving the production line. Whether you are an automaker, a distributor of spare parts, a car dealer or a garage or an individual vehicle owner, Valeo Service is with you in more than 150 countries.

Products

Valeo products are structured in 4 basic markets: Maintenance, Repair, Accident, Accessories. Valeo Service provides spare parts and accessories to vehicle manufacturers from Original Equipment Spare Parts (OES) to Independent Aftermarket Market (IAM). Valeo product expertise includes:

- Clutch Systems
- Air Conditioning Systems
- Wiper Systems
- Lighting Systems
- Engine Cooling Systems
- Electrical Systems

Valeo Service has an average of 7,000 new references released every year.

Range

Our company serves you with all kinds of Valeo products in the heavy vehicle group. (Mercedes, Scania, Volvo, DAF, Renault, Iveco, Ford Trucks, BMC)

ERKUNT

I Turkey

Erkunt Tractor Industry Inc. was established on September 12, 2003, with entirely domestic capital. Tractors Erkunt within a short period of one year, Turkey has started to produce the first domestic tractor design. Erkunt Tractor has been a brand that has earned the trust of the Turkish farmer with its tractors' high performance, low fuel consumption and a sector-first 3-year warranty. Erkunt become one of the most important names in the tractor industry, the market settled and got 3rd in 6 years has become one of Turkey's largest 500 industrial companies. Erkunt Tractor Industry Inc., which wants to carry its domestic achievements to the national level, is growing in the export network with a dealer network in 17 countries by launching the export brand ArmaTrac. Erkunt Tractor Industry Inc. is producing in Ankara Sincan Organized Industrial Zone.

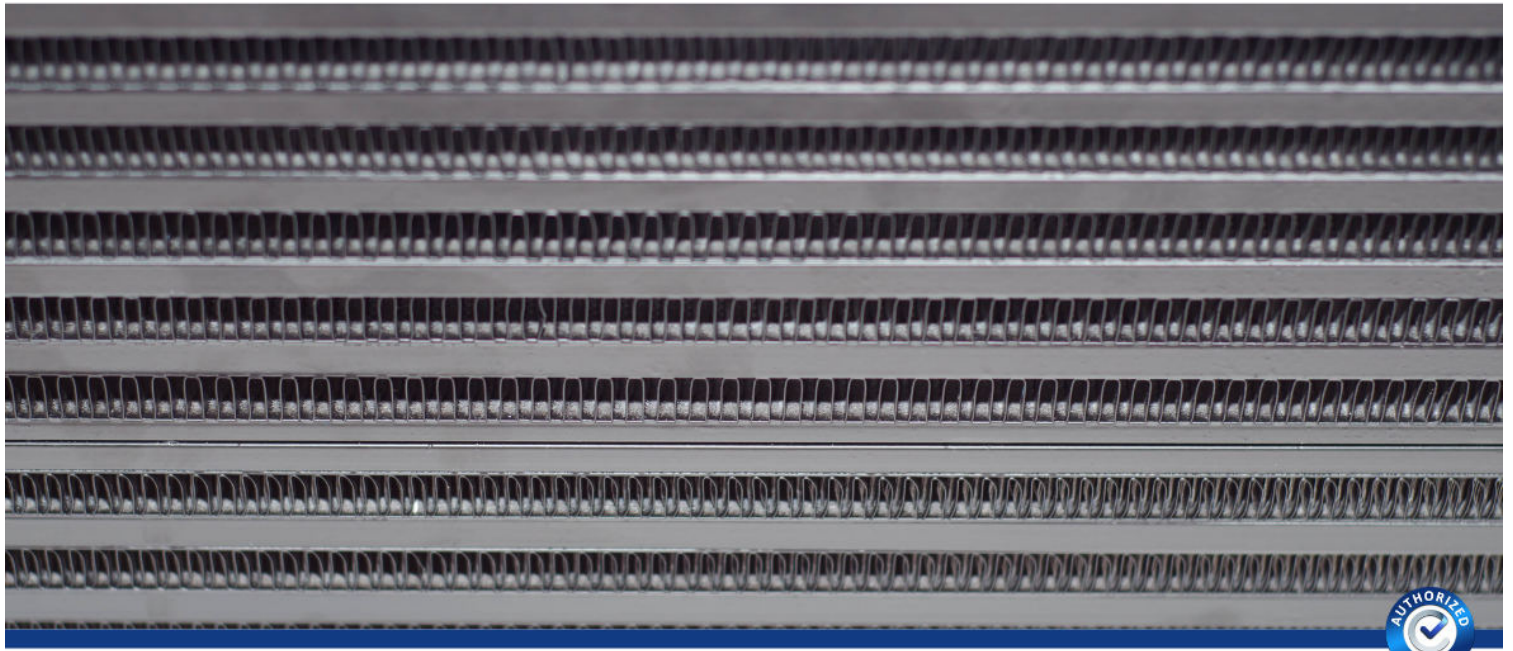

Products

Products

Bosch Automotive Aftermarket group operates in 15 main product branches. These include batteries, lighting systems, gasoline injection, spark plugs, steering systems and components, diesel spare parts, electric spare parts, filter systems, brake systems, glow plugs, starter engines and alternators, sensors, wipers and pumps.

Range

Our company, which has been the authorized dealer of Bosch Aftermarket products since 2017, It provides service with its entire Bosch product range in the passenger vehicle and construction equipment group.

I Germany

The story of SACHS began when the tool maker Ernst Sachs, who gave the brand its name, filed a patent application for the first bicycle wheel hub in 1894. A year later, Ernst Sachs is a trader and together with the capitalist Karl Fichtel, he founded the company "Schweinfurter Präzisionskugellager-Werke Fichtel & Sachs" (precision ball bearing manufacturing plant). Then, as it is today, the stated philosophy has been to remain technologically clear ahead of companies competing in terms of both product quality, innovation and customer service.

Products

SACHS products are made of high-quality materials and are manufactured with the latest technology. The products are high performance and reliable. Therefore, most of the well-known automotive manufacturers use SACHS products in their vehicles. Every year, more than 10 million new vehicles leave the production line, equipped with SACHS shock absorbers. In addition, SACHS provides high-quality clutches for original equipment manufacturers and the spare parts market.

Range

Our company, which has been an authorized dealer of Sachs and TRW products since 2014, serves with all product range in the heavy vehicle, light commercial, passenger car and tractor group.

MAHLE

I Germany

Driven by performance

Every second, MAHLE product is installed in a vehicle in any part of the world. MAHLE is a leading international development partner and supplier of the automotive industry and a pioneer and technology router for future mobility. MAHLE Group is committed to making transportation more efficient, more environmentally friendly and more comfortable. MAHLE constantly optimizes the combustion engine, advances alternative fuel use and forms the basis for widespread acceptance and worldwide promotion of e-mobility.

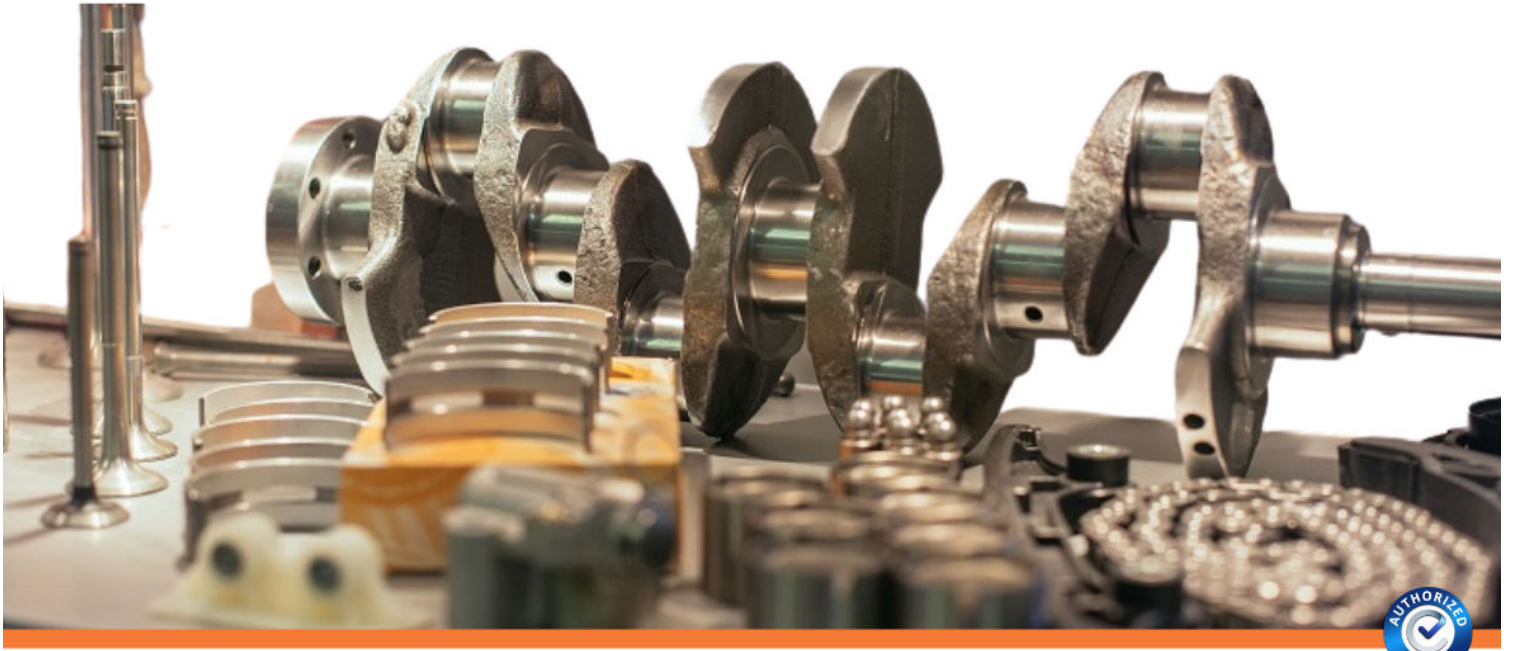

Products

Having made OEM quality production a principle, MAHLE specializes in engine parts, gaskets, engine cooling, air conditioning, filter, starter, alternator and e-mobility.

Range

Our company, which has been an authorized dealer of MAHLE in filter, turbo and thermostat groups since 2016, serves in heavy vehicle, light commercial, passenger and construction equipment groups.

I Turkey

Motor Parçaları

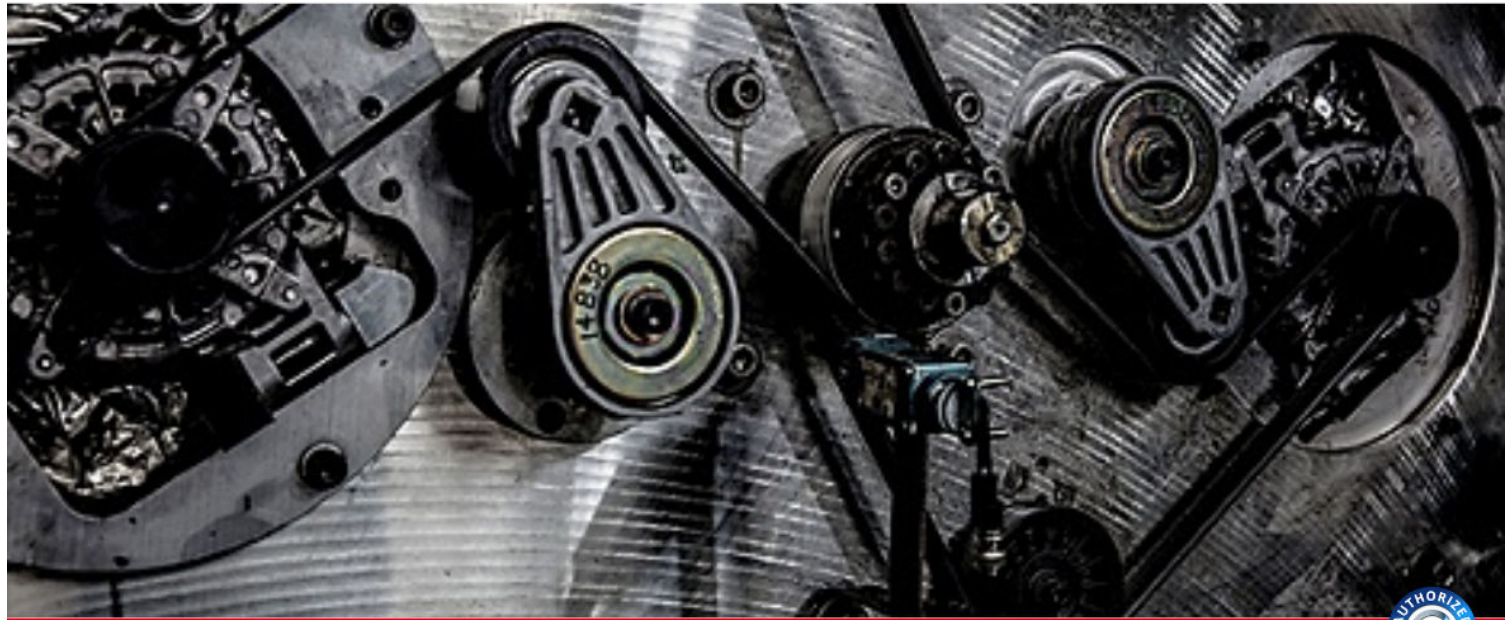

Supsan, a Borusan Holding company, has been producing engine valves for all kinds of internal combustion engines under the license of Eaton SRL since September 3, 1970. Supsan is the original part supplier of car manufacturers for engine valves, valve guides, valve cotteners, push rods and valve caps. Supsan who has started the production of camshaft and turbo charger in its own facilities in 2014 also distributes engine valves, valve guides, valve inserts, valve cotteners, push rods, gasket sets, camshafts, valve lifters, cylinder heads, cranks, valve shims, valve seals, cylinder head bolts, engine bearings, turbo chargers, EGR valves, air flow meters, valve springs and timing chains through its aftermarket channels. The conformity of its quality management system to ISO / TS 16949 requirements is approved by a TÜV CERT, an international auditing institution.

Supsan is the leading producer of Turkey in its field. The engine valve needs of Ford Otosan, Oyak Renault, Tofaş, Türk Traktör, Iveco, Anadolu Isuzu, Başak Traktör, Karsan, Daf Tırsan and Temsa are supplier by Supsan. Foreign customers of Supsan are Ferrari, Mercedes Benz, BMW, Aston Martin , Bentley, Porsche, Volkswagen, Fiat, JCB, Ford, Iveco, Daf, Volvo, Renault, Dacia, Nissan, Peugeot, Volvo Penta, Isotta Fraschini, VM Motori, Detroit Diesel, GM, Chrysler, John Deere .

Range

Gates serves the following markets: Energy, Marine, Mining, Oil and Gas, Oil Refinery, Construction Equipment, Agricultural Equipment, Heavy Equipment, Forestry Equipment, Truck and Bus, Transportation, Inflatable Boats, Railroad, Space Industry.

Range

We have been an authorized dealer of Gates since 2013. It serves in trucks, light commercial vehicles and passenger cars.

SOLUTIONS MADE IN GERMANY

I Germany

After the company was founded in 1844, in the early years of Ferdinand Bilstein's past, specially produced metal products were offered. In 1880, the main activity of the company turned towards the production of lathes, screws and nuts. When the automotive industry emerged, they focused on the supply business. The patented spring bolt, released in 1921, has become a reference product. The brand name "febi", which is still used today, was acquired in 1923 and the product range expanded greatly in the following years. In the mid-1990s, the focus was on spare parts for German and European vehicles to clarify the brand profile. This tremendous growth led to the continuous expansion of the production area and logistics center in the head office Ennepetal, as well as establishing other sub-companies abroad. Ferdinand Bilstein now supplies more than 34,000 repair solutions for passenger cars and commercial vehicles and is supported by more than 20 branches worldwide.

Products

Ferdinand Bilstein offers all important parts for professional repairs for all brands and models for cars, heavy vehicles, buses, trailers and vans (light commercial vehicles). Thus, it offers products of the same quality as completely original equipment. This is guaranteed by both extensive quality management studies and competence in production. Febi is not just a supplier. It manufactures spare parts in its production facilities with the slogan "Made in Germany".

Range

Our company, which has been an authorized dealer of FEBI since 2016, serves in heavy commercial and light commercial and passenger groups.

I Turkey

YUMAK, which has been producing high quality spare parts for the automotive supplier industry since 1975, has been producing with 45 years of experience. The products produced in OEM quality in the production facilities with high technological infrastructure are exported to more than 80 countries. Yumak, which exports 80% of its products abroad, attaches more importance to innovation than its competitors. In this way, it has developed many new products and continues to develop with each passing year.

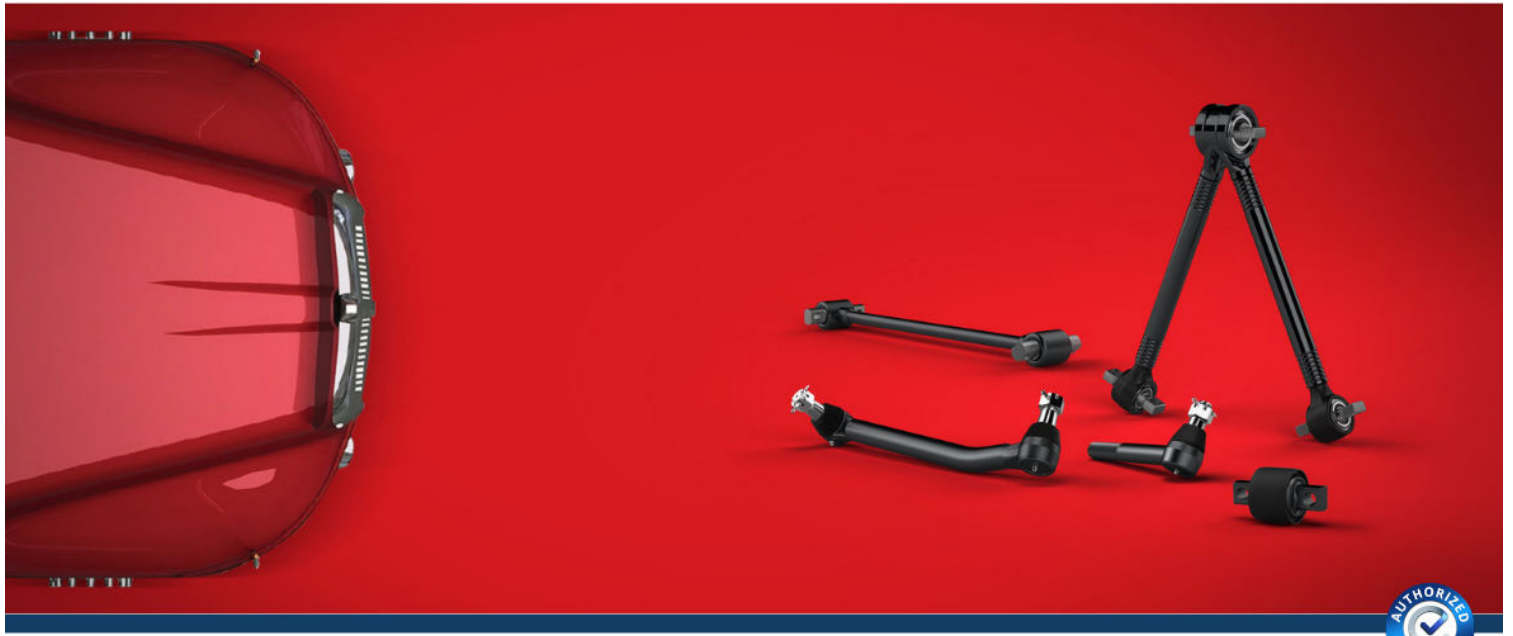

Products

YUMAK manufactures compressors and repair kits, clutch master cylinder, brake bleeder, hand brake valves, relay valves and circuit protection valves for heavy vehicles. It is produced for Mercedes, MAN, Scania, Volvo, DAF, Renault, BMC, Ford, Isuzu, Otokar, Mitsubishi and many other brands.

Range

Our company, which has been YUMAK authorized dealership since 2016, serves with all product groups, especially heavy vehicles.

I Turkey

The company has been established in 1950's and manufacturing steering and suspension parts since 1982 under the brand of ROTA. ROTA manufacture over 10.800 OEM references product such as tie rod end, ball joint, centre rod, axial joint, triangular torque rod, torque rod and repair kit for commercial vehicles, agricultural tractors, construction machines and special vehicles. Specialized in producing low volume, wide variety, customer oriented solutions products and holding ISO 9001, IATF 16949, ISO 14001 and ISO 45001 certificates, ROTA makes a difference in its sector as an original equipment manufacturer with original product warranty, product liability and after-sales service support. ROTA produce the products in integrated factory with its molding, hot forging, rubber metal, R&D, engineering, production planning, production, quality, assembling, packaging, logistics departments. Manufactured products are served to business partners by sales and marketing team. Exporting 85% of its production and supplying 20% to OEM-OES industry customers, ROTA adds value to environment with its technology and an innovative, environment friendly production understanding of high standards. ROTA exports products manufactured under the complete production supervision to more than 100 countries across 5 continents at the best quality, competitive prices and on time. NSK Automotive, NSK Hot Metal Forging factories produce ROTA branded products and RAN Industrial Products operating sales and marketing activities all around the world. Both Kazangil Autopeças company in the Brazilian market and ROTA North America LLC in the USA and Canadian market carry out sales and marketing activities of ROTA branded products. All companies are under the NSK Group.

Range

Since 2020, we have been the authorized dealer of ROTA. It serves with all product groups, especially heavy vehicles.

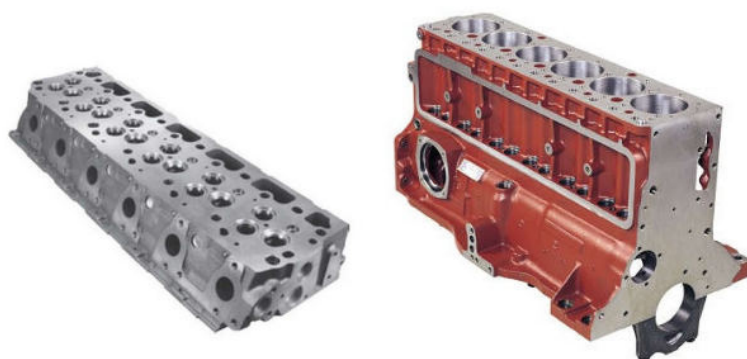

I Brazil

Estas established in 1977, it is Turkey's first and largest camshaft production facilities. Since 1979 ESTAS has been manufacturing camshafts for OEMs. Today, ESTAS camshafts is used in 16 domestic and foreign automotive vehicle maker engines. In addition to being the original parts manufacturer, ESTAS is exporting camshafts to the spare parts market of 44 countries. ESTAS's production program includes more than 2500 camshafts of over 2500 vehicle and machine engines worldwide. ESTAS has 1063 employees, casting and camshaft manufacturing plants with 70.000m² closed, in Sivas, where a total of 182.000m² is organized in an integrated manner.

Range

Our company sells spare parts for Mercedes, Scania, Volvo, Daf, Ford and Cummins in heavy vehicle groups. It also sells Estaş products for Perkins engines.

VICTOR REINZ®

I Germany

Original equipment manufacturer and spare parts supplier, Dana, provides the highest quality innovative sealing technologies under the brand of Victor Reinz®. Entire spare parts in the great variety of product range meet high OEM quality standards. This includes not only individual recommendations, also includes fast delivery of manufactured parts. The dedicated employees meet the customer's needs with great innovative perspective, concentrated expertise and above all, with constant passion.

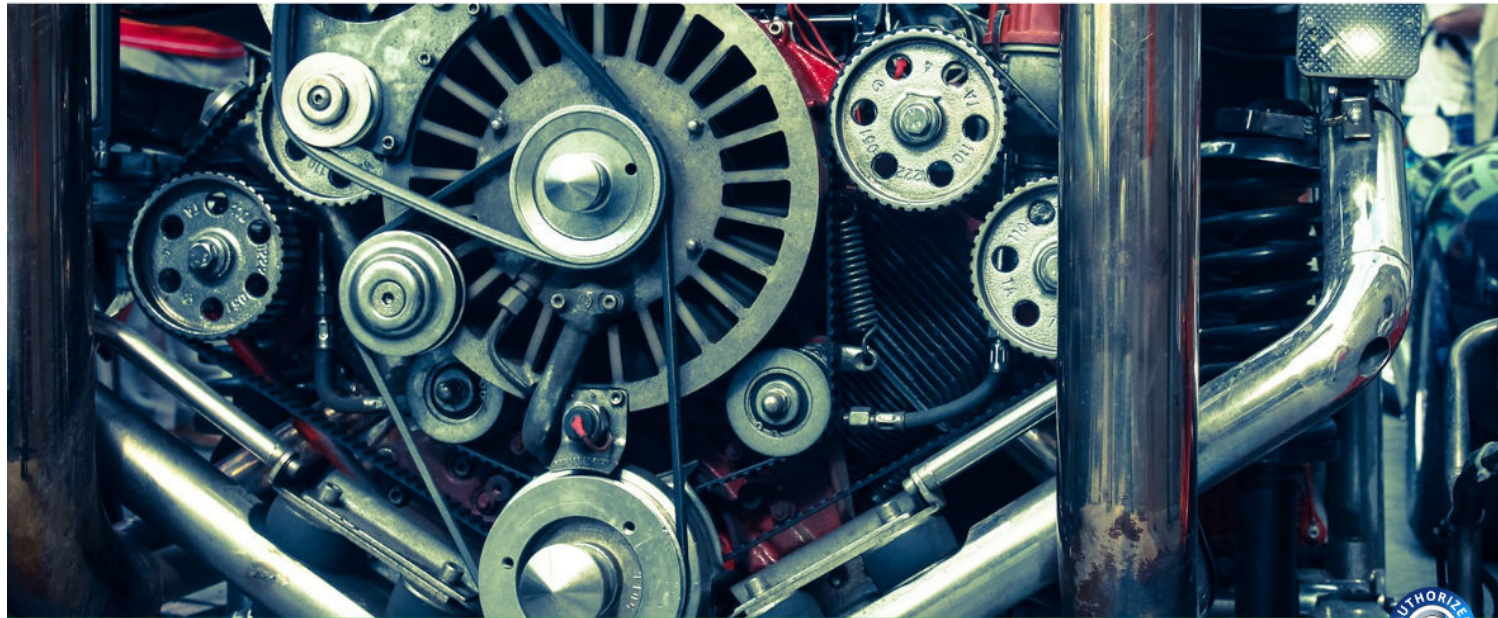

Products

Victor Reinz® produces sealants for all vehicle groups. The main product range is Cylinder head gaskets, cylinder head gaskets, sealants and oil seals.

Range

Our company, which is the authorized dealer of Victor Reinz® products since 2019, provides service with its entire product range for heavy vehicles, light commercial vehicles and passenger vehicles.

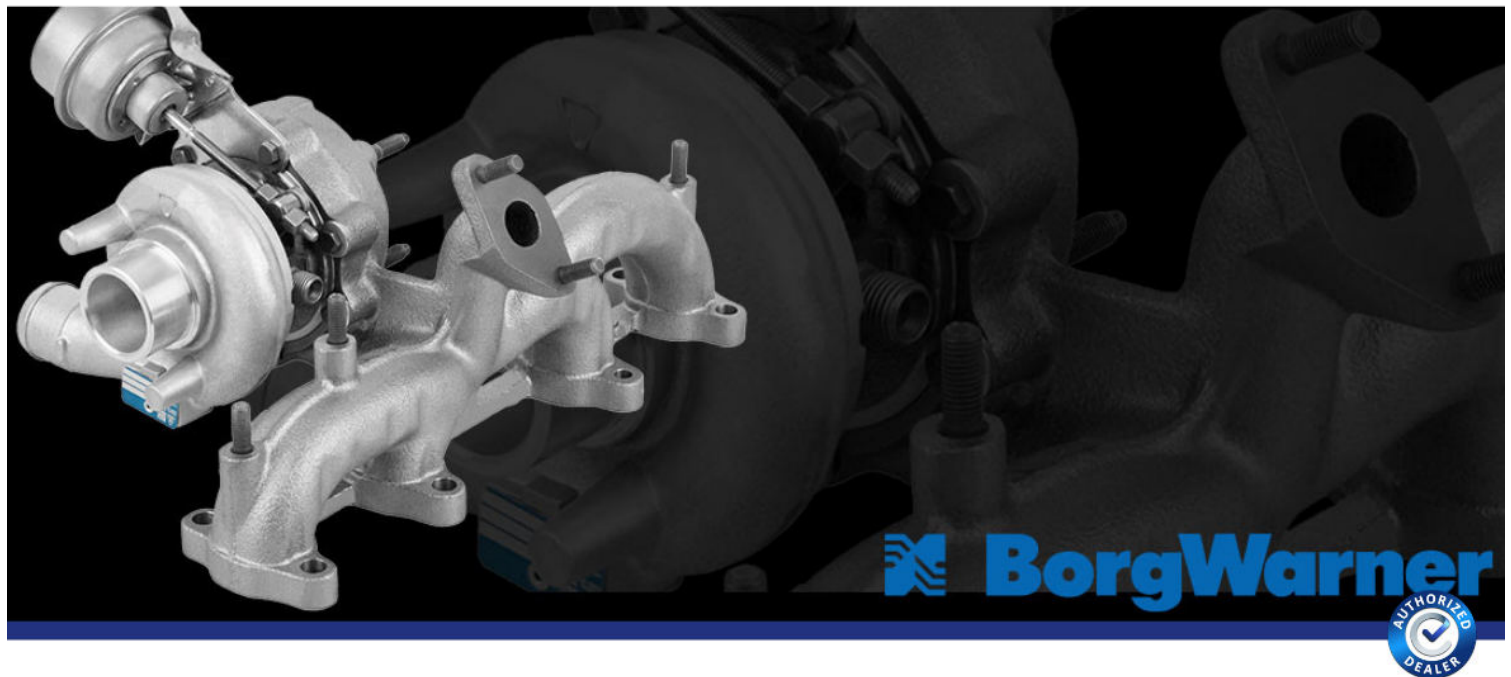

I Bosnia

“Pobjeda” is an ISO 9001 registered oil and water pump manufacturer for cars, trucks, tractors, industrial and other engines. It manufactures pumps for 130 different engines, including Mercedes, Man, Iveco, Perkins. Pobjeda products are exported to many countries of the world, especially Germany. Their main customers are Mercedes, Man and Iveco.

Range

Our company, which has been an authorized dealer of Pobjeda products since 2017, serves with its entire product range for heavy vehicles, light commercial vehicles, passenger and tractor group vehicles.

I Germany

BorgWarner Turbo Systems is one of the leading suppliers of innovative turbocharger systems. It is also the authorized partner of the automotive industry worldwide. After merging 3G and Schwitzer, BorgWarner Turbo Systems has a great experience in turbocharger technology. Since 1952, it has been started to develop and manufacture turbochargers with the 3K and Schwitzer brands. Today BorgWarner Turbo Systems is still continues to lead this field. It is also provided 3K and Schwitzer replacement turbochargers and parts for all customers worldwide by Borgwarner.

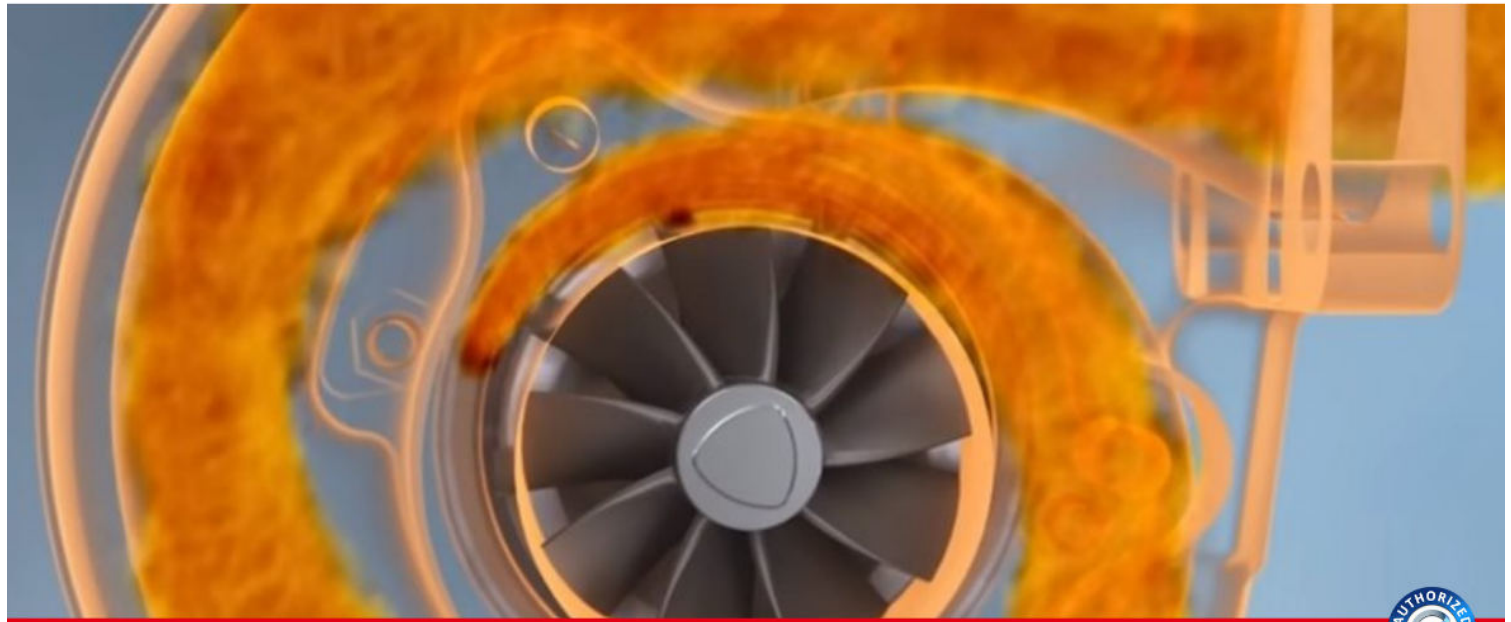

Products

It is produced turbo for vehicles with engine power of 20 Kw or 1000 Kw such as passenger cars and commercial vehicles and industrial, locomotive and marine engines

Range

Our company, which is an authorized dealer of Borgwarner products since 2016, provides service with its entire product range for heavy vehicles, vans, passenger cars and tractors.

Garrett
ADVANCING MOTION

I USA

Garrett is one of the automotive industry's most iconic brands. It's a name synonymous with six decades of world-first innovation, responsible for ground-breaking turbocharging technologies that have changed the way we think about performance and driveability. Garrett turbo technology has been the boost behind some of the most significant moments in automotive history. Through experience, talent and a mindset that challenges convention, the Garrett brand will continue to set the pace; to create the differentiated high-performance systems that deliver competitive advantage to customers and help redefine the end user experience.

Products

From mainstream passenger vehicles to F1 racing cars; from delivery vans and haulage trucks to huge off-highway equipment.

Range

Our company, which is an authorized dealer of Garrett products since 2016, serves with its entire product range in the heavy vehicle, van, passenger car, tractor and construction equipment groups.

I Spain

Founded in 1947, Ciguenales Sanz company started its commercial life by producing for motorcycle engines. The company started production for international companies such as Mercedes, John Deere, Perkins and Nissan in the 1960s and started production for Renault, Citroen and Seat in the early 1980s. In the 1990s, it started to produce for heavy vehicles, tractors and construction equipment, and significantly increased its product range.

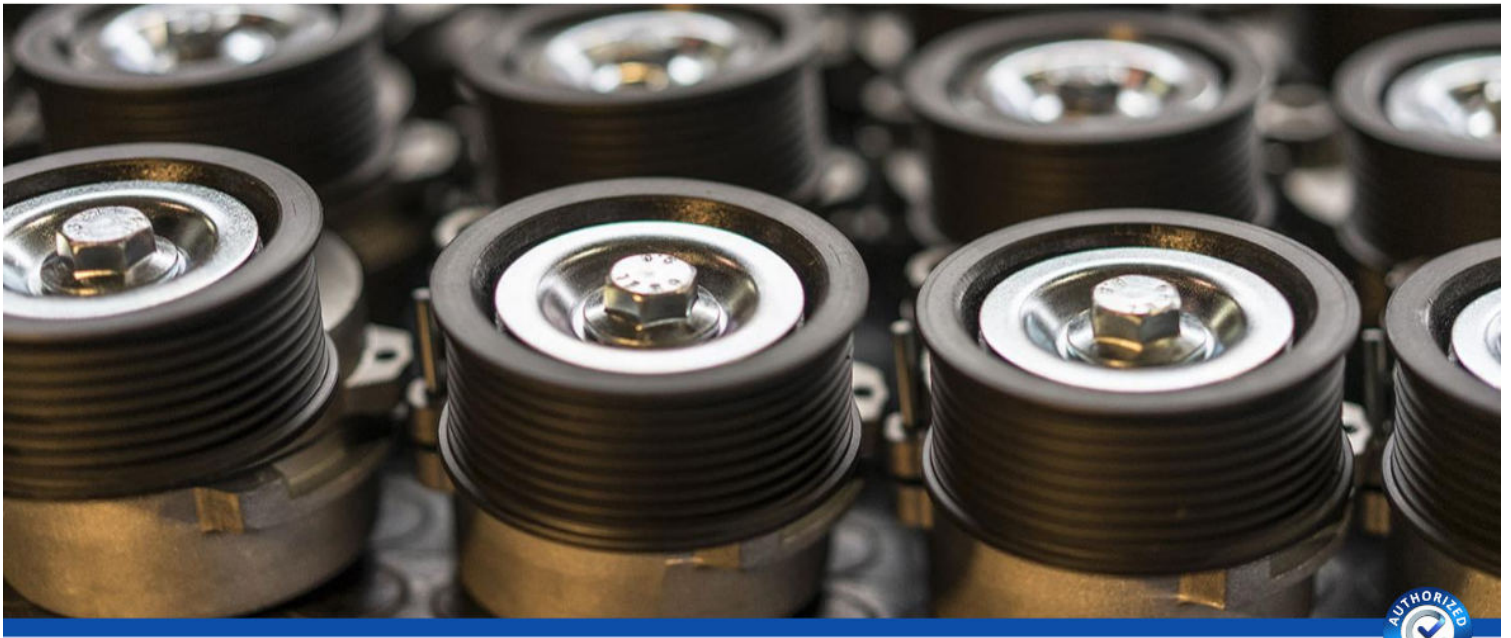

Products

Sanz manufactures cylinder heads, crank shafts, camshafts and flywheels. The products that it produces for heavy vehicles, light commercial vehicles, passenger cars, tractors and construction machines are provided both in the OEM and aftermarket markets. It produces for 30 different engines including Mercedes, Man, Scania, Volvo, DAF, Renault, Cummins, Komatsu, Caterpillar, Yanmar, Doosan.

Range

Our company, which has been an authorized dealer of Sanz products since 2016, serves with its entire product range for heavy vehicles, light commercial vehicles, passenger cars, tractors and construction equipment.

I Turkey

The companies mission has been to produce high quality products for engine cooling systems since 1998, It has been started to manufacture tensioners for heavy vehicles since 2013. Turkey's heavy vehicles group with first class companies viscous fan and FM 'FM WISCO' and 'FM GERGI the' branded products are ISO 9001: 2000 quality assurance is in production. It is produced in facilities in Izmir and Konya.

Products

Fan Market manufactures fans, tensioners and belts. The company manufactures heavy duty vehicle brands for Mercedes, MAN, Kamaz, Mitsubishi, Volvo, Scania, Iveco, Dodge, Renault, Ford, BMC, Otokar, Isuzu, New Holland, Donfeng, Case, Nissan, Mack, John Deere and Cummins engines.

Range

Our company, which has been an authorized dealer of Fan Market products since 2000, serves with its entire product range for heavy vehicles, light commercial vehicles, passenger cars, tractors and construction equipment.

I Turkey

Tutanlar Otomotiv Tic. LLC.'s journey started in 1956 as a small business producing original parts for Mercedes-BENZ in Ankara. The journey of production started in 1992 in İkitelli district of Istanbul with 1 universal lathe machine, 1 milling machine, 1 drill machine, with the new structuring it realized in order to reach bigger goals. In order to meet the increasing demands in 1997, it continued its production in Esenyurt Istanbul by adding 1 new (LB25) CNC lathe, 1 (MC500), 1 universal lathe machine, 1 milling machine and 1 drill bench to its workshop. Weger, a Turkish brand that has recognized its quality worldwide, produces parts as an OEM and exports to 36 different countries. Weger established Global Automotive Ltd Company in 1999 as a sales and marketing company. With its new investments in 2011, Tutanlar Otomotiv has turned into a factory with high-tech devices. In this period, it has been added 25 new high-tech CNC lathes and 30 CNC machining centers on production line. Tutanlar launched the brake disc, brake pad line section in 2012. Today, Tutanlar Otomotiv Ltd has been joined the world's largest of the automotive industry and It's continued to produce spare parts for commercial vehicles and passenger cars.

Range

Our company, which has been the authorized dealer of Weger products since 2000, serves with its whole product range.

I Turkey

SKT was founded in 1955 by three idealistic technical teachers who effected the Industry of Bursa. SKT is the first company of Diniz Holding and continues to be one of the leading brands in the automotive industry in Turkey. With a history of more than half a century, SKT is proud to make its dreams reality. Since its establishment the company achieved with its future vision important innovations and effected significant changes in the Turkish Industry which helped him to become a strong player in its sector. SKT developed its production processes by using synthetic rubber materials and became the first manufacturer of synthetic rubber oil seals in Turkey. Beside of this SKT is the first manufacturer of the electric motor in Turkey. With a closed production facility of 14.000 m2 which is built on a total area of 20.000 m2 in Bursa Industrial Zone, SKT supplies with around 350 employees various industries, especially the international automotive sector. Oil seals, rotary shaft seals with PTFE lips, piston seals, u-cup seals and anti-vibration elements are main products of SKT. SKT is carrying out all production processes by using modern machine inventory in-house. SKT's expert engineer staff closely follows the latest developments in technology and the industry and leads the design and development of many sealing elements. Having flexible planning and production capability, SKT can respond to customer demands and expectations in the fastest way possible. SKT makes 60% of its general sales to OEM and OES and the remaining part to the aftermarket through its strong spare parts distribution network. With the R&D certificate it received in 2015, it accelerates its projects and carries out many projects supported by Tübitak. Quality control tests of all rubber mixtures to be used in their own products, rubber material R & D studies and control tests carried out in certain periods according to material specifications are carried out in the material laboratory. SKT, by exporting 50% of its production to many countries of the world are contributing to Turkey's economy.

Range

Our company, which has been an authorized dealer of SKT products since 2019, serves with its entire product range.

I Turkey
